## LEADERSHIP

---

As a multi-talented and well experienced person with qualifications, I maintain a certain image and value of the company with me. In addition to my language skills, I'm also well versed with corporate pressure and the issues that come with and how to deal with it. Moreover, I boast a great amount of knowledge in working with various computer software such as word and excel. And I'm also good with number. Moreover, I have a great deal of skill in web development and computer science as a front-end developer with knowledge of HTML, CSS & JavaScript
