PROFESSIONAL SUMMARY

Full-Stack Developer currently pursuing a BCA (expected 2026) with a formal certification in Front-End Development. Strong front-end foundations (HTML, CSS, JavaScript) combined with backend experience in Node.js and Python. Experienced building responsive, accessible interfaces and end-to-end web applications; skilled in Git-based workflows and basic cloud/DevOps practices.

CORE TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Python, SQL, C/C++, Java. Frontend: React, Next.js, Bootstrap, Responsive Design, CSS Grid/Flexbox
Backend / APIs: Node.js, Express, Django/Flask, RESTful APIs
Databases: PostgreSQL, MongoDB, Redis
DevOps & Cloud: GitHub Actions, Docker, basic AWS (EC2, S3), Terraform (basic)
Tools / Testing: Git, GitHub, Chrome DevTools, Jest, Pytest

PROFESSIONAL EXPERIENCE

Sales Admin Cum Accountant • Badruddin Abdultayeb — Pune, India
Nov 2024 – June 2025

- **Manage daily data entry, reconciliation and record-keeping using Excel and company systems to ensure accurate financial and inventory records.**

- **Produce routine reports for sales and stock; streamlined report templates to reduce manual work and improve clarity for management.**

- **Support product and content updates for company listings and customer-facing platforms; collaborate with tech/support teams to resolve listing discrepancies.**

- **Provide after-sales support and handle customer queries submitted via web/app channels.**

Front End Developer • Hindustan Mattress — Pune, India
Feb 2023 – Oct 2024

- **Create a stable mattress website with modern UI and intuitive accessibility.**

- **Produce routine reports for sales and stock; streamlined report templates to reduce manual work and improve clarity for management.**

- **Support product and content updates for company listings and customer-facing platforms; collaborate with tech/support teams to resolve listing discrepancies.**

- **Manage other various social platforms of company.**

Customer Service Representative • Alfa Sapphire — Business Bay, Dubai
May 2021 – Jun 2022

- **Delivered front-line customer support across phone and digital channels, resolving inquiries and ensuring positive customer experience.**

- **Maintained CRM entries and coordinated with internal teams to track issue resolution and follow-up actions.**

- **Collected customer feedback and suggested improvements to help reduce repeated queries and improve user satisfaction.**

Sales Representative Intern • Saasa Traders — Deira, Dubai Jan 2017 – Jan 2019

- **Assisted sales operations and online customer acquisition efforts; supported product listing and basic digital marketing tasks.**

- **Performed inventory support and aided in maintaining accurate product information.**

SELECTED PROJECTS (Full-Stack & Multi-language)

Full-Stack E-shop — Solo/Team — React, Node.js, Express, MongoDB

- **Built product listing, cart and checkout flows with client-side validation; backend API supports CRUD and payments (Stripe sandbox). Deployed to Heroku/Vercel. (Link: github.com/yourrepo)**

Task Manager API — Solo — Node.js, Express, PostgreSQL

- **Designed RESTful API with authentication, role-based access, and unit tests; implemented pagination and optimized queries to reduce response time.**

Personal Portfolio — Solo — HTML, CSS, JavaScript, Next.js

- **Responsive portfolio demonstrating projects, blog links and a contact form; implemented SEO basics and performance optimizations.**

Data Dashboard — Solo — Python (Flask), SQLite, Chart.js

- **Created an internal dashboard to visualize sales and inventory trends; automated CSV imports and summary reports.**

E-shop UI Prototype — Solo — HTML, Bootstrap, JavaScript

- **Prototype focused on UX: responsive product cards, filtering, and client-side validation to showcase frontend skills.**
